

## President's Message

Greetings to APCRI members and well wishers.

APCRICON 2010 is being conducted at New Delhi. The theme "Joining hands for a Rabies free India by 2020" has been selected to get co-operation from all stakeholders and work for elimination of Canine Rabies and prevention of Human Rabies in our country.

There are many medical professionals in our country who are rendering selfless service to the animal bite victims, but their services remain unnoticed. It is important that their views and experiences are shared with others working in the field of Rabies prevention.

IDRV has been introduced in many states in the country. The authorities in the respective states should monitor the implementation of the same, especially in the rural areas.

I heartily welcome all the delegates attending APCRICON 2010.

**Date: 30th June, 2010**  
**Place: Hyderabad**

**Dr. G. Sampath**  
**President, APCRI**
