

From The Editor's Desk

Dear Colleagues,

Greetings to all our Readers. I am very happy to present you with this issue of the APCRI Journal, Volume XIX, issue I, July, 2017.

The APCRI Journal is being published continuously and regularly for the last 18 years. Since 2006, it has an ISSN, and is regularly published two times a year, and is mailed to all APCRI members and other interested groups and officials. The Journal has an international circulation. **The APCRI Journal has been indexed in Index Copernicus International since 2013.**

The Journal of any professional and scientific organization is the medium through which everyone can get relevant information about the academic and scientific activities of that organization. It is most essential for creating interest about academic and scientific activities in that organization amongst its members.

I hereby thank all the contributors for their articles. I also thank the Peer Reviewers for their help and guidance in bringing out this issue. Without an abundant supply of articles, no editor can bring out a journal. I take this opportunity to once again request the scientific community for articles on Rabies and related topics for publishing in the “APCRI Journal”, in future.

Any grievances or queries' can be addressed through “Letters to the Editor”.

I thank the corporate house of **Glaxo Smith Kline Pharmaceuticals Ltd** for their Advertisement in the Back Cover. I also thank **Dr. G. Sampath**, President APCRI, **Dr. S. Abdul Rahman** Immediate Past- President APCRI, **Dr. V. Srinivas Rao**, Treasurer APCRI, for helping me to bring out this issue of the APCRI Journal.

This issue of the APCRI Journal is a step in the endeavor of the APCRI to fight the menace of Rabies by increasing the awareness about Rabies in all sections of the society. Let us all commit ourselves for the elimination of human rabies from India.

Date: 7th July, 2017.
Place: Kolkata.

Dr. Amlan Goswami
Editor, APCRI Journal
