

FROM THE EDITOR'S DESK

Dear Colleagues,

Greetings to all our Readers. I am very happy to present you with this issue of the APCRI Journal, Volume XX, issue I, July, 2018.

The APCRI Journal is being published continuously and regularly for the last 20 years. Since 2006, it has an ISSN, and is regularly published two times a year, and is mailed to all APCRI members and other interested groups and officials. The Journal has an international circulation. **The APCRI Journal has been indexed in Index Copernicus International since 2013. The Rating Points (ICV) of the APCRI Journal has been increasing every year very significantly.**

The Journal of any professional and scientific organization is the medium through which everyone can get relevant information about the academic and scientific activities of that organization. It is most essential for creating interest about academic and scientific activities in that organization, amongst its members.

I hereby thank all the contributors for their articles. I also thank the Peer Reviewers for their help and guidance in bringing out this issue. Without an abundant supply of articles, no editor can bring out a journal. I take this opportunity to once again request the scientific community for articles on Rabies and related topics for publishing in the “APCRI Journal”, in future.

The views expressed by the authors in this Journal are their own. They do not necessarily reflect those of APCRI. APCRI is not responsible for the opinion of the individual authors of the articles published in this Journal.

This Journal is for Internal Circulation only. It is circulated purely on a complementary basis.

Any grievances or queries' can be addressed through “Letters to the Editor”.

I thank the corporate house of **Indian Immunologicals Ltd** for their Advertisement in the Back Cover. I also thank **Dr. D. H. Ashwathnarayana**, President APCRI, **Dr. Sumit Poddar**, Secretary General APCRI, **Dr. H. S. Ravish**, Treasurer APCRI, for helping me to bring out this issue of the APCRI Journal.

This issue of the APCRI Journal is a step in the endeavor of the APCRI to fight the menace of Rabies by increasing the awareness about Rabies in all sections of the society. Let us all commit ourselves for the elimination of human rabies from India.

Date: 6th July, 2018.
Place: Kolkata.

Dr. Amlan Goswami
Editor, APCRI Journal.
